Height 43 cm

Weight 3.8 kg

Larger than life size

Australian fur seal pup statue

This cute little fur seal pup replica is a realistic hand carved grey fur seal pup. It sits steadily on its flippers.

Have you been lucky enough to see one of these beautiful Australian fur seals on our coast waters and oceans, or perhaps breeding in rocky island or boulder or pebble beaches?

The streamlined shaped strong flippers make this marine mammal an agile swimmer and are skilful hunters.

The seal comes with realistic looking clear whiskers and brown / black colour tones.
